SIMPLE YET EFFECTIVE... THIS ELECTRIC HAND PALLET TRUCK IS AN ALL-ROUNDER

Our PBPL electric pedestrian pallet trucks make moving products efficient and convenient. Unlike conventional hand pallet trucks, they feature a 48-volt Lithium-Ion power source: making them the perfect choice for short and mid distance runs. The PBPL is a user-friendly, multi-use solution for nearly any application.

SPEC SHEET

Electric Hand Pallet Trucks

1.2 – 1.5 tonnes

Mitsubishi PBPL12-15 Series **Electric Hand Pallet Trucks**

1.2 - 1.5 tonnes

FORKS

With its compact design, low

service weight and small turning

radius, the PBPL series is ideal for

use in confined spaces, including:

The PBPL series of 1.2 and 1.5 tonne

electrical driving and lifting functions,

high-capacity 48V Lithium-Ion battery

provides six hours of productive use.

The truck is supplied with an external

charging dock - allowing you to charge

an extra battery in just 3.5 hours, while

construction gives a stable and

performing body design provides

exceptional maneuverability in tight

one piece from solid steel to ensure maximum strength and reliability.

• Integrated rocker arm is cast in

Maintenance free brushless

(AC) wheel hub motor with

no wearable components like

carbon brushes or contactors to

operation and low maintenance.

hub motor design allows tight

integration into wheel hubs, thus

eliminating the need for gears.

Patented low noise gearless

replace over time offer long-lasting

Compact, lightweight, high-

the truck is still in use.

FRAME AND BODY

• High quality, stable

durable platform.

(1.5 tonne model)

areas.

DRIVE

as well as a manual lowering. The

exchangeable, maintenance-free,

retail stores, trailers, containers

and small warehouses.

- Tapered fork tips and tandem PU rollers with fork tip rollers for easy pallet entry and exit.
- Reinforced chassis and forks with tapered ends offers easy pallet entry. (1.5 tonne model)

electric pedestrian pallet trucks feature BRAKES

- Regenerative Brake System with electromagnetic (parking) disk brake, improves the braking performance and working life of the electromagnetic brake.
- **Parking brake** automatically stops on gradients and ramps.
- Kinetic energy from the regenerative brake system charges the battery.
- Double brake discs are included as standard for enhanced braking performance. (1.5 tonne model)

ELECTRICAL AND CONTROL SYSTEMS

- 48V/20Ah high capacity Lithium-Ion battery lasts longer and is more powerful.
- Li-lon battery with no leaking hazardous battery gases and acids does not require watering and provides maintenance-free operation.
- External charger makes it possible to charge the battery onboard.
- External charging dock allows charging an extra battery while using the truck with only 3.5 hours charging time.
- Battery interchangeability means that batteries can be used across all PBPL models regardless of capacity

OPERATOR ENVIRONMENT AND CONTROLS

- Ergonomic spring-loaded steering handle with comfort grip for reduced operator fatigue.
- Long tiller with large ergonomic handgrip and integrated battery status indicator provide a comfortable hold and strain-free operation.
- Side castors improve stability.

OTHER FEATURES

- Easy maintenance with no expensive handheld required, only a laptop, software and a cable.
- Polyurethane wheels and rollers for smooth and guiet running and additional grip.
- Choice of 1.2 or 1.5 tonne models ensures the PBPL Series suits a wide range of applications.

VDI – PERFORMANCE & DIMENSIONS 1.5 TONNES

CE

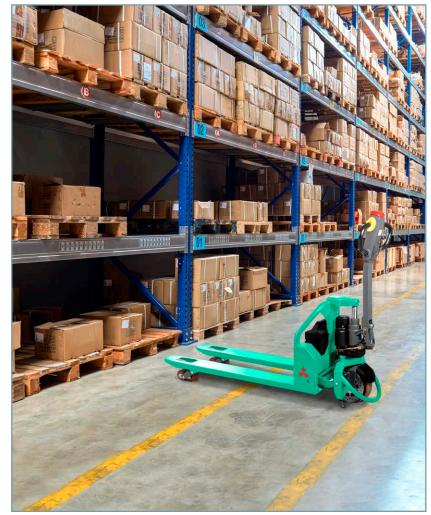

Mitsubishi PBPL12-15 Series

Electric Hand Pallet Truck

1.2 - 1.5 tonnes

POPULAR FEATURES

- **# 1 Compact design**
- # 2 Quick-charging battery
- # 3 High-productivity tiller
- **# 4 Maintenance-free battery**
- **# 5 Easy-entry forks**
- **# 6 Choice of load capacities**
- **# 7 Double brake discs** (1.5 tonne model)
- # 8 Integrated Rocker Arm (1.5 tonne model)
- # 9 Universal battery exchange

#2 The PBPL's 48V lithium ion power source charges in just 3.5 hours and offers 6 hours of use.

#3 Multi-function, ergonomic handle with stepless speed control offers high productivity.

#4 PBPL's 48V/20Ah high-capacity Li battery requires no watering and is easy to remove and exchange for fast changeovers.

#5 Reinforced fork structure with tapered ends for easy pallet entry

#7 Double brake discs (1.5 tonne model) enhance braking performance.

#9 Batteries can be exchanged easily between 1.2 and 1.5 tonne models for maximum productivity.

#1

Like any product bearing the Mitsubishi name, our materials handling equipment benefits from the tremendous heritage, huge resources and cuttingedge technology of one of the world's largest corporations – Mitsubishi Heavy Industries Group.

Engineering spacecraft, jet planes, power plants and more, MHI specialises in those technologies where performance, dependability and superiority decide vour success or failure...

So when we promise you quality, reliability and value for money, you know it's a guarantee we have the power to deliver.

That's why every model in our award-winning and comprehensive range of lift trucks and warehouse equipment is built to a high specification - to ensure it keeps working for you. Day after day. Year after year. Whatever the job. Whatever the conditions.

YOU'LL NEVER WORK ALONE

As your local authorised dealer, we are here to keep your trucks working – through our extensive experience, our technical excellence and our commitment to customer care.

We are your local experts, backed by efficient channels to the entire Mitsubishi Forklift Trucks organisation.

No matter where you are, we are close by – with the capability to meet your needs.

Discover how Mitsubishi gives you more from your local authorised dealer or when you visit our website www.mitforklift.com

Performance specifications may vary depending on standard manufacturing tolerances, vehicle condition, types of tyres, floor or surface conditions, applications or operating requirements and locally available configurations should be discussed with your distributor of Mitsubishi forklift trucks. Mitsubishi follows a policy of continual product improvement. For this reason, some materials, options and specifications could change without notice.
